

UNDERSTAND YOUR PATIENTS WITH CRITICAL LIMB ISCHEMIA (CLI)

AS A HEALTH CARE PROVIDER, YOU UNDERSTAND WHAT NEEDS TO BE DONE, BUT DO YOUR PATIENTS?

Today's health care environment is very diverse, and physicians interact with patients from an ever-growing range of ethnic and cultural backgrounds.

In your role as a care provider, you have the opportunity to help your patients understand their disease states, risk factors and available treatment options so they can take the steps that are appropriate for their care.

That is why Boston Scientific has conducted research into learning more about how certain demographics, specifically women and minorities, are dealing with their diagnosis of certain disease states so that we can help you with your outreach and interactions. The information provided here can help you and your marketing staff get a glimpse into the drivers and barriers your patients may be facing with their health.

KNOW YOUR PATIENTS: DIVERSE PATIENT PROFILE*

WHO
